The time that these services are open tend to not reflect upon a typical Soldiers schedule. Maybe most Soldiers dont want to participate so hours of operation have been cut but that hurts that do want to participate. Most places do not open until we are at work and close right after we get off. Most of us do not even work on Ft. Detrick so by the time we commute back to post, everything is closed. I definitely like the new gas pumps and the fact that they are always available. My wife and I usually end up driving to Ft Meade or Ft. Belvoir to go food shopping. Detrick has much shorter hours of operation, closed 2 out of 7 days and the shelves are always empty making it hard to purchase the items we need. The PX, while better than the old, could use reshaping in products. Soldiers want DVD's and CD's, not tool boxes and washing machines. The video game selection is terrible. Military clothing is improving but it is hard to get help back there and they often do not the most common items, such as SPC, SGT, and SSG rank but they always seem to have plenty of officer rank. In regards to the barber shop and the dry cleaners, why do they not accept the star card? Both establishments are plastered with the AFFES name yet they are not an AFFES store? As a Soldier, I can use my star card to buy all the alcohol and cigarettes I want. but I cannot get a haircut or get my uniforms cleaned. The answer I have been given in the past is that they are not setup to accept the star card. It is a credit card, they already accept other credit cards so what is the problem? There were a lot of questions in this survey specific to Ft. Detrick about golf courses. Could one be constructed on Area B? That would be very nice. One last thing, the indoor pool at the gym. Why do Soldiers and thier families have to pay to use the pool that is part of the fitness center which is free to use? I have been at Ft. Detrick fo just about three years now and it is easy to see that things are improving. I believe that things could still use some improvement for the overall benefit of the Soldier. More weekend activities, establishments open for longer hours and a general attitude of we are here for you, would be nice.

I would like to see as a minimum a driving range facility developed at Ft Detrick. The facility should include a putting green and a chipping green and could foster a childrens program to teach kids the fundamentals as well as act as a place for recreation for the reainder of the community. I further believe this is a money making proposal for MWR.

Communication is key in any relationship. In the relationship between the Army and it's servicemembers, this is more true. The MWR activities and services would better be utilized if they were announced more often and regularly. I suggest tasking a unit representative to disseminate weekly events and activities, along with a web link to view ALL of the local MWR activities.

It's absolutely pathetic that a post with this many detachments, commands and personnel does not have a golf course. At Ramstein, they had a wonderful course, clubhouse, dining facility and it made a big difference in my lifestyle in Germany. As it is, I had to pay over 900\$ to golf at a 9 hole course at the local VFW. The CAC for dining here is horrible (the facility, not the people). Getting a good golf course would probably be a money maker for the Post.

Unfortunately I live too far away from any base, especally an Army Base to give you good feed back on this survey. I honestly beleive I would use the MWR facilities and programs if I lived closer, I would use alot if not all of them. I feel that the programs and facilities you provide to children of Military families is tremendous, the parents really need that feeling of secuity for their kids, especially when some spouses are deployed, it is very important that you make every acception for kids of deployed parents feel loved, informed and well schooled. Even though my input on this survey does not reflect it, keep up the great work!

The pool on base I would be more willing to utilize, if I could pay a monthly fee. Being a GS 7 and a single parent, paying a lump sum can be difficult. Also, I do not see why military, DoD civilians and contractors should pay the same rates. I believe that the military should pay the lowest rate, than your DoD civilians and the higher rates should be paid by your contractors. It seems that MWR in several of the on post facilities caters to the contractors which is wrong...if they are going to cater to anyone it should be the military. The reason I don't want to use the gym...is because the contractors are always in there during the prime hours. It seems the Government has decided to pay them better, give them bonuses and than give them any benifit that the military or a civilian employee would receive. Maybe you should make Fort Detrick a contractor facility and dump the military and civilians....

I would love to take the matting & framing class, but it overlaps with my child's daycare closing time. Immediately after work when daycare is still open would be better. The frame shop is wonderful. Wonderful staff too.

The library is incredible. My child just loves the children's room and the software for children's learning games- a big hit with him. WONDERFUL!!! And a wonderful staff.

MWR does a wonderful job trying to meet the needs of this installation. The staff is always trying to do things for our post. They are incredible!!!

I can't take advantage of most MWR activities primarily because of my geographic location and commute to work. One facility I would use on a regular basis is the gym IF the hours of operation were expanded slightly. The gym does not open until 0600, which is when I start work. During my previous tour on Camp Lejeune, the gyms were open at 0500 which allowed time for a pre-work exercise routine. I would probably use the indoor pool but the price is too high for occasional use. Camp Lejeune's indoor pools were free. I would also like to see an outdoor sport court that could be used for inline hockey and basketball. Otherwise, the recreational facilities offered at Fort Detrick are outstanding.

Even though they try to adequate set up handicap. They are not meeting the requiements. Just beacause they put a sign that said is handicap accesable, they don't provide the requirement. I.E. sitting space in the health clinic for wheel charis, Ramp in the pool for wheelchair or a lift, space betwee equipment. Parking space are to small for lift or ramp. parking space are to far from the sidewalk ramp. Electronic handicap button are in an inadquate position throught the post, and the time is off for a wheel chair.

My husband and I both enjoyed the dinner theatre production and the comic shows we attended here on base. We wish that MWR offered them much more often. This entertainment was reasonably priced and very close to home.

Offer good jazz programs (NOT fusion) and we will be here. We travel to DC twice a month to listen to good jazz. We need a good local venue.

My only complaint about the fitness center is that the temperature and humidity are not controlled well in the building. On too many days the facility is uncomfortably warm and quite stressing for hard exercise.

I do not fly often but was unaware the travel arrangements for leisure could be made here. MWR needs to advertise its services better.

There is alot of confusion on post as to what civilians are entitled to use and what not. Can civilians use the bowling facility or auto shop? Communication is the key and I don't feel the word is getting out therefore alot of programs and facilities are under utilized. The Thrift Shop on post is a great asset and needs to be expanded. On a personal note: USAMRIID needs a lunch room that is capable of housing at least 100 people. We have at least 800 people in this building Could something be done on this side of post? The SAIC library/dining hall is limited on parking space and especially a problem in bad weather. Is it possible for civilians to eat at the new dining hall that is in the process of being built across the road. I think it would help out a great deal and would keep money on post rather than off. (just a thought :)

My major issue is the charging for food at NCI cafe. if you go their on a regular basis the amount your charged for food varies based on who rings you out. When questions your told that that's the cost. Up to date prices should be posted for all items and the staff should follow them. They should at least be available to settle disputes the price charged is the price posted. I have stopped going to the cafe on a regular basis for this very reason.

Overall Comment

The NCI Cafe personnel especially those in an authoritative position must be customer friendly and not doubt what the customers said if they have a problem. Customer service training is needed for the NCI Cafe.

I do not know why I was choosen to do this survey. I do not live near the installation to take part in anything that is offered. I beleive this survey should be focused on those who live and work on or near the installation who can take advantage of all the ood things that are offered. I am sure the MWR programs are great and several people put a great deal of effort in making these programs available. My responses do not reflet this or give credit where credit should go simply because I don't particapiate in anything on the installation. This is due to to the tavel distant to the installation for either my work or home.

I am very impressed with the matting and framing shop and the woodworking shop. The level of competency shown by the staff is the best I've seen anywhere in the military. You are lucky to have Bill and Lydia working at these facilities. The equipment is excellent, and well maintained.

The goose droppings around the picnic and pond site are a big problem, especially when fishing in the pond. You can't step without stepping in some. Something needs to be done to eliminate the problem.

After waiting for the gym pool to be built, I was sorely disappointed that a fee is being charged to all but active duty members for its use. It really sends a message that the post does not care about its retired community and dependant family members. It would be different if there were a charge for everyone, but the differentiation leaves a poor impression.

The on-post hunting program is an excellent opportunity for those who have no place else to hunt. It should be continued and expanded, if possible. Reopening of the skeet range would be an excellent service, as well.

I would like to see the Auto Crafts Facility on Ft Detrick be moved to better facility or present location expanded, to include several more side lift and center lift bays; Change operating hours to include both SAT and SUN. I believe there would be enough patronage to warrant the above improvements.

I am not yet engaged in a fully retired lifestyle and am not yet oriented towards using these services, but would seek to preserve such services for others use now and my potential use in the future.

Overall Comment

I am well aware of the benefits of these fine programs, particularly to the active duty families and I definitely support the continuance of and preservation of these programs.

I just am not now at a point where I personally make any significant use of these programs. That should NOT be construed to suggest that I disapprove of or disrespect, in any way, these programs or the fine people who provide these services. Thank you.

I was sent this questionnaire by Fort Detrick but I do not know why since we live 45 minutes from there and do not use it. Our main post for MWR services is Fort Myer which we do use mainly for its officer club. While my contact with Myer is limited, it does seem to have excellent facilities and we would use it more if we lived closer to it.

If my answers seem to be lacking, it is because I work on another installation (Ft Belvoir) and live nearly an hour from Ft Detrick. If I knew of dinner theatre events at Ft Detrick, I would enjoy taking my wife to some of them.

I work as a consulting architect and am working on my PhD in Information Systems Sciences. I tend my flower garden for relaxation. I run MilChess for the military people (www.milchess.com) and have precious little time for anything else. My last vacation was in 1963 and I don't expect to ever take another one. My response profile will place me well outside of the 3rd standard deviation so my responses will be mathematically eliminated. My children are grown and the wife departed when I retired. Fort Detrick offers barely adequate commissary and exchange facilities.

It would be very helpfull if the installations made more facilities and activities available for families with Special Needs children or adults.

Family programs do not address these issues.

I have used MWR at other bases so much. It seems at this base I haven't been terribly active. I think the biggest reason is the lack of activity in a family readiness group. In the months leading up to Iraq we tried to start one but it never took off. My children are now grown and that has also played into the degree of activity. We are in the process of moving back to Bragg. I have taken advantage of all that MWR offers there.

I am really happy that Detrick built the new PX. The staff there is awesome,-fun ladies. I would like to see a community board there with information about the different activities located at the base. It could even be in a locked case in the parking area, that way control over what is placed there is maintained. Something does need to be done to get the word out about what is offered and where to find it. I just found out 2 months ago about the framing. I didn't think they had a shop on base.

Thanks, Jane

I used to live near Ft. Detrick but my husband is not assigned there. I work full time which includes weekends. This precludes using most if not all MWR services on post. I occasionally use the gym but it is inconvenient since we moved closer to Washington DC and this area is too congested with people and traffic to make it worth while. Perhaps you could offer coupons for discounted rates to local services like gyms or the cleaners.

I feel this survey was hard for me to give good answers. We show quarter horses so we are out in the state more which means we use less of the services than most families. If I had any comments for families who use these services would be cost factor and what is offered in the area. Some post are in smaller areas than others.

So much of this sounds amazing! I can't believe it! I really wish I had known about it. Paintball, ceramics, stained glass even. My husband and I would have gotten a baby sitter and to have time at the ceramics studio. He has always wanted to do stained glass. I am stunned and a liittle shocked that I had no clue any of this was available. I am disappointed. The and other activities for kids sound great. How do I find out about it? We are going to Fort Hood in 2 months, how do I find out? In 5 years I never heard anything, please invest more in advertising to the spouses. Don't get rid of anything please.

I nor my husband, who's active duty, have ever been notified of events going on w/MWR. It would be nice to get mail or email of such up coming events.

Better hours for the bowling center, unless they were just renovating the one night we tried to go.

Keeping the fitness center for military & family members only. Get new racketball eye-gear.

Ft Detrick needs a movie theater, mini-golf too. The new PX is nice But small & only Burger King! The pizza at Ft Meade was great! (So was there movie theater, commissary & PX & extra. & officer housing)

Commissary needs to be Bigger & open on Sunday & Monday.
